

fusioninventory-agent-windows-installer - Tasks #2167

New 'GetFusionInventoryTaskSchedule' function.

06/19/2013 11:18 AM - Tomás Abad

Status:	In Progress	Start date:	06/19/2013
Priority:	Normal	Due date:	
Assignee:	Manuel J. Garrido	% Done:	50%
Category:		Estimated time:	0.00 hour
Target version:	Unplanned yet		

Description

Write in '\FusionInventory Agent\Include\WinTasksFunc.nsh' a new function 'GetFusionInventoryTaskSchedule' to get the Windows Task schedule of the FusionInventory-Agent task, whether it exists.

```
; GetFusionInventoryTaskSchedule
!define GetFusionInventoryTaskSchedule "!insertmacro GetFusionInventoryTaskSchedule"

!macro GetFusionInventoryTaskSchedule Frequency Modifier
    Call GetFusionInventoryTaskSchedule
    Pop ${Frequency}
    Pop ${Modifier}
!macroend

Function GetFusionInventoryTaskSchedule
    ...
    ...
FunctionEnd
```

The error flag should be set if the Windows Task doesn't exist.

Then, change in '\FusionInventory Agent\Include\MiscFunc.nsh' this

```
{If} ${FusionInventoryAgentTaskIsInstalled}
    ; FusionInventory Agent Windows task installed
    ${WriteINIOption} "$R0" "${IO_EXECCODE}" "${EXECCODE_TASK}"
{EndIf}
```

to this other

```
{If} ${FusionInventoryAgentTaskIsInstalled}
    ; FusionInventory Agent Windows task installed
    ${WriteINIOption} "$R0" "${IO_EXECCODE}" "${EXECCODE_TASK}"
    ${GetFusionInventoryTaskSchedule} $R1 $R2
    ${Select} "$R1"
        ${Case} "${FREQUENCY_MINUTE}"
            ${WriteINIOption} "$R0" "${IO_TASK-MINUTE-MODIFIER}" "$R2"
        ${Case} "${FREQUENCY_HOURLY}"
            ${WriteINIOption} "$R0" "${IO_TASK-HOURLY-MODIFIER}" "$R2"
        ${Case} "${FREQUENCY_DAILY}"
            ${WriteINIOption} "$R0" "${IO_TASK-DAILY-MODIFIER}" "$R2"
    ${EndSelect}
{EndIf}
```
